PROFILE

Experienced Full Stack Developer with a robust background in designing, developing, and maintaining responsive and efficient web and mobile applications. Proficient in utilizing modern technologies across both front-end and back-end development, committed to implementing best practices and creating scalable solutions that align with business objectives.

PROFESSIONAL EXPERIENCE

Self-Employed

2023 - PRESENT

Freelance Full Stack Developer

- Developed and deployed web and mobile applications using React Native, Next.js, and Node.js, serving various clients in sectors such as finance, health, and e-commerce.
- Engineered RESTful APIs, effectively handling database operations with MongoDB and PostgreSQL.
- Implemented microservices architecture using Docker and managed orchestration with Kubernetes to enhance application scalability and maintainability.
- Ensured comprehensive application security protocols including OAuth and JWT for secure data transmission.

Studio Tech

2021 - 2023

Junior Full Stack Developer

- Led the development of several web applications from inception to launch, optimizing both client-side and server-side code.
- Collaborated with UI/UX designers to refine application designs and improve user interactions.
- Utilized CI/CD pipelines for automated testing and deployment, significantly reducing downtime and speeding up the iteration process.

EDUCATION

Professional Certification in JavaScript Application Development

2019 - 2020

OpenClassrooms

- Recognized by the French Government (RNCP Level 6 - equivalent to Bachelor's degree).
